NOTE: ALL PUBLIC PARTICIPANTS WILL BE MUTED UPON ENTRY INTO THE MEETING AND WILL ONLY BE UNMUTED TO ALLOW THEIR COMMENT. TO PROVIDE PUBLIC COMMENT BY TELECONFERENCE PRESS *9.

PUBLIC COMMENT:

Members of the public commented on repairing the ditch before the 2023 season, using South Feather's help, and looking forward to hearing the Interim General Managers report.

E. CONSENT ITEMS

- Approval of Minutes for Regular Board Meeting of January 23, 2023
- Approval of Minutes for Special Board Meeting of February 02, 2023
- 3. Approval of Payroll for the Month of January 2023: \$34,405.16
- 4. Approval of Bills for the Month of January 2023: \$263,546.61

Vice President Plumb made a motion to approve consent items 1, 2, 3 and 4. Director Ronneberg seconded the motion.

The motion was approved with a unanimous vote.

F. FINANCIAL MANAGERS REPORT

1. Review of Cash on Hand and Income Statements for the period ending

Financial Manager Heidi Naether reviewed Cash on Hand and Income Statements for the period ending January 31,2023. Total cash on hand in all accounts including reserves was \$5,047,151.57. Total income for the fiscal year to date (July 01, 2021 – January 31,2023) was \$4,248,255.06. Total expenses were \$1,674,971.98, leaving a net revenue over expenses of \$2,573,283.08. Expenses out of Reserves/Savings year to date totaled \$1,210,588.51.

G. STAFF REPORTS AND RECOMMENDATIONS

The Board will possibly hear reports by District staff and receive their recommendations for future Board action.

Operations Memorandum. Interim General Manager Leona Harris reported that work has been done on both upper and lower ditches which included work on the access roads. Leona reported that pictures have been included in the Managers Report of before and after to show progress, with hitting the worse spots first. South Feather is ready to go as soon as the weather breaks.

President Furnee clarified that South Feather had crews already on the Forbestown Ditch to prep for cement and asked about the worse loss which Leona reported was from 3 to 5 CFS which they are working on now. Also on the Oregon House Ditch, Carol Cabral's has been prepped, pressed, the pipe was pulled out and the road was repaired. Director Wright asked for clarification on the removal of the pipe, Leona reported that it will be completed when the weather breaks. Director Furnee shared that Carol was very happy when notified that there would be a gate installed. Director Wright commented on the before and after photos and public outreach.

Mr. Boylan had nothing new to report.

H. THE BOARD WILL DISCIUSS AND POSSIBLY ACT UPON A PLAN TO REVIEW EXISTING BOARD RESOLUTIONS AND POLICIES:

Mr. Boylan, District Counsel discussed the apparent backlog of resolutions and motions that are held in binders by past boards. The suggestion was previously made to create a committee to supervise the review. Mr. Boylan reported that district administration is currently reviewing them and would also be important for him to also review them legally speaking to make sure everything is comprehensive. Mr. Boylan also informed the Board that they are all invited to come in and look at any of the books by calling Leona to set up a time and place. Any problems identified are appreciated and helpful. A committee is not necessary when administration is doing and can continue to do the job.

Vice President Plumb agreed that the board review the policies and a committee is not necessary. No motion was necessary. After further discussion Mr. Boylan clarified that both digital and hard copy would be available. The administration will be reviewing and the board members and members of the public review with them. As the reviews are done and comments made they will be provided to the board.

I. THE BOARD WILL DISCUSS AND POSSIBLY ACT TO CLARIFY WHICH DISTRICT IRRIGATION POLICY IS IN EFFECT:

President Furnee discussed with the board that Irrigation letters would be going out on March 1, 2023, and an irrigation policy must be in place.

Interim General Manager Leona Harris stated that she liked the 2008 policy better due to more explanation and being self-explanatory.

President Furnee made a motion to adopt the 2008 Irrigation Policy. Director Ronneberg seconded the motion.

Vice President Plumb amended President Furnee's motion to adopt the 2008 Irrigation Policy subject to change President Furnee seconded the motion. The motion was approved with a unanimous vote.

Director Wright made a motion to amend the current 2023 Irrigation Policy to reflect a monthly payment plan for irrigation customers. President Furnee seconded the motion. The motion was approved with a unanimous vote.

J. <u>DIRECTORS REPORTS:</u>

President Furnee reminded the board that form 700 must be filled out before April. She also reminded the board to take their classes online.

ADJOUR	RNMENT
The meeting was adjourned at 6:11 PM.	
Respectfully Submitted,	
Catherine L. Fonseca, Recording Secretary

DATE: March 16, 2023

SUBJECT: Bid recommendation for the North Yuba Water District – Water Storage Improvements

Project.

BACKGROUND: The Water Storage Improvements Project (Project) for North Yuba Water District (District) will increase the reliability of water supply for the communities of Challenge, Forbestown, and Rackerby. The outdated Challenge Tank, a 100,000 gallon wooden structure, will be replaced with a new bolted steel tank. The Rackerby Tank and Forbestown Tanks, both 100,000 gallon bolted steel structures, will be lined to secure water quality and supply. These improvements to storage are crucial for ensuring dependable water supply and emergency fire protection for residents in the area.

The Project is funded by a Department of Water Resources (DWR) Integrated Regional Water Management (IRWM) Implementation Grant. The total grant agreement amount for the construction phase of the project is \$546,163, which includes \$481,151 for construction and \$65,012 for construction administration. The Project Bid Package was prepared by SUSP Engineering and offered for public bids January 19, 2023.

BID RESULTS: Two sealed bids were received by SUSP Engineering for the Project by the March 2, 2023 deadline. SUSP Engineering reviewed the bids and the bid tabulation is attached below. The low bidder was Escheman Construction Company, which quoted a price of \$1,230,720.90.

Toll free: 800.833.0322

Phone: 916.553.4900

Fax: 916.553.4904

The other bidder, Paso Robles Company, submitted a base price of \$1,680,999.00. Both bids are substantially higher than the Grant Agreement amount.

RESPONSE OPTIONS: SUSP Engineering notes the following general options and the pros and cons for each. Each option indicates the cost covered by grant funds and the amount of additional funding needed to cover the bid price. The partial project costs are approximate and based on the Escheman Construction bid form amounts.

1. Accept the low bid and proceed with the Project:

The client can proceed with the project by accepting the low bid received by Escheman Construction. This option will permit the project to be completed as intended, delivering the desired benefits to the communities. Although this option involves the District funding a majority of construction costs, it will ensure that the project is completed in a timely manner.

Project cost: \$1,230,721 Grant funds available: \$481,151 NYWD funding amount: \$749,570

Pros:

- Project can be completed in 2023
- Costs are presently known and will not rise further due to inflation
- No amendment of the grant scope or schedule is required

Cons:

- North Yuba Water District must fund the majority of the Project
- 2. Remove the Rackerby and Forbestown Tank linings from the Project and proceed with the replacement of the Challenge Tank:

While the cost of the Challenge Tank replacement is higher than the Grant Agreement cost, this option would ensure that the most critical component of the Project is addressed. This option would require the District to seek additional funding through grants or other sources to cover the cost of the Challenge Tank replacement.

Project cost: \$836,858 Grant funds available: \$481,151 NYWD funding amount: \$355,707

Pros:

- Challenge Tank will be replaced this year
- Costs will not rise due to delay / inflation for the majority of the Project
- Reduces the amount of funding the District needs to finance the Project in short term

Cons:

- Will require an amendment to the Grant Agreement scope of work
- Schedule to line the Forbestown and Rackerby Tanks will be delayed indefinitely
- 3. Request and amendment to the grant amount from DWR for the entire Project:

The DWR may be willing to revise the grant amount to permit the full Project to proceed. The grant amount was intended to cover the construction cost. Costs have increased since the original construction estimate used to support the grant application. It may be possible to have DWR increase the award amount to move the Project forward.

Project cost: \$1,237,721

Grant funds available: TBD

NYWD funding amount: TBD

Pros:

- District may receive greater grant funds under a modified agreement
- Allows time for the District to seek alternative financing
- The entire Project would be completed

Cons:

- Will require an amendment to the Grant Agreement
- Schedule for the entire Project will be delayed
- Project costs are likely to increase during the delay
- 4. Delay the Challenge Tank replacement part of the Project and proceed with the lining of the Rackerby and Forbestown Tanks:

The Challenge Tank replacement is a significant cost driver in the project, and by delaying it for a year, the immediate Project cost would be reduced. The cost of lining the Rackerby and Forbestown Tanks will be covered by the Grant Agreement amount while the District seeks additional funding. The remaining grant could be used for the Challenge tank later after the District secures additional funding.

Project cost: \$1,230,721

Grant funds available: \$481,151

NYWD funding amount: \$749,570

Pros:

 Allows the District to make progress on the Project goals while seeking additional funding sources

Cons:

- Will require a schedule extension to the grant
- Prices may continue to rise for the Challenge Tank during the delay

RECOMMENDATION: The best option is for the District to pursue the Project now and fund the construction budget shortfall directly, Option 1. The current inflationary environment is pushing up costs for services and materials across the economy especially in construction. SUSP Engineering does not expect to receive substantially lower bids for the Project if it is reoffered to bid. Pursuing a grant amendment with DWR would entail delay, possibly for more than one year, and risks having a negative outcome where no additional funding is awarded. Every other Option requires an amendment of some type from DWR.

If Option 1 is not possible financially, SUSP Engineering recommends Option 2. This alternative may delay the Project as an amendment of scope from DWR will need to be sought to remove the tank lining work.

Memorandum

Date: March 17th, 2023

To: Leona Harris

From: Operations

Subject: Monthly work production/ Schedule of Maintenance review

The following is an overview of the work performed this month by operations staff.

Canal Improvement Projects Underway!

Upper Forbestown Ditch Shotcrete Update:

On 2-13-2023 South Feather began preparing two sections of the upper ditch for shotcrete. The
two sections will total 900' ft. and weather permitting was expected to be completed by 2-24-23.
Due to the recent weather events, the completion date has been delayed. The two sections have
been prepped and are ready for shotcrete. Work is expected to continue, with approximately one
week of warm dry weather, snow has been an issue. Shotcrete should take three to four days to
complete.

Dobbins/Oregon house Canal Shotcrete Update:

1. On 2-15-2023 the district began preparing, a 1000' ft. section of 01 near Indiana Ranch Rd for shotcrete. The district is also improving the access Rd to this area which is 1000 feet long. This project, weather permitting was expected to be completed on 2-24-23. Due to the recent weather events, the completion date has been delayed. All prep work is completed and the district has been in constant contact with the contractor, to coordinate completion with a window in the weather. Work is expected to continue, with approximately one week of warm dry weather, rain and mud has been an issue. Shotcrete should take three to four days.

Office Update:

- 1. A new generator was installed by chico electric. The generator became operational on 3/6/23.
- 2. The district has been in contact with PG&E for new parking lot lighting. Due to recent weather PG&E crew members have been unavailable to install new lighting, as soon as crews become available new parking lot lighting will be installed.

Transmission:

1. Forbestown ditch is now in its winter cycle. The treatment plant is receiving water every ten days, or as needed. The ditch is being patrolled; trash racks cleaned, fallen trees removed, and the ditch cleaned and groomed for ongoing repairs and upgrades.

Storm Damage update:

1. There were approximately 5 trees that had fallen on the Forbestown ditch. They have been removed and not caused any issues.

Distribution:

- 1. Domestic meter reads for Forbestown and Challenge were completed on time.
- 2. There were 0 service line leaks for the last month.
- 3. There was 0 main line leak for the last month.
- 4. All blow offs were inspected, no problems were found.
- 5. All air releases were inspected, no problems were found.
- 6. All dead-end main lines were flushed.

Water Treatment Plant:

1. With the new upgrades mentioned in previous reports, the treatment plant is functioning normal at this time with no issues.

Backflow:

1. All backflows are current, there were 0 backflow tests required within the last 4 weeks.

Regulators:

1. All CDPH (Cal. Dept. of Public Health) and NPDES (Nat. Pollution Discharge Elimination System) tests and samples were taken and performed on time. These include 3 bacteriological distribution samples for the CDPH, which came back as non-detect.

DOH Canal:

1. At this time field staff is doing an assessment of the canals in preparation for the irrigation season. Maintenance and improvements to the canals are ongoing.

Storm Damage update:

1. No issues have been observed at this time.

Schedule of Maintenance:

1. The SOM (schedule of maintenance) for the treatment plant, regulators (local, state and federal) and UFC were completed for the previous month. All regulatory (local, state and federal) reports for the current month were completed or are in process.

Safety Meetings:

- 1. Safety meetings are held weekly, all field employees are required to attend. The following is a list of completed safety meetings in the last 4 weeks.
- 2. #1 Snow Safety.
- 3. #2 Safe tree removal.
- 4. #3 High wind preparedness.
- 5. #4 Power tools in wet conditions.
